## TO WHOM IT MAY CONCERN

Dear Sir/Madam,

### **RE: Domenico Allegretto**

In 2001 I was fortunate enough to have Domenico working as my Architect. The project involved a complete gut and refit of a 300 square metre office space. It was a difficult project in that there were many structural elements that could not be moved.

Domenico's design process was excellent. He was most attentive to our requirements and his eventual design was both aesthetically pleasing and very efficient with regard to use of space and movement of people.

Domenico also worked as our Project Manager during the construction phase and I found him to be both dedicated and enthusiastic during this process. Having him as my advocate in negotiations with the builder made my experience both easy and relatively stress free. The end result exceeded my expectations and I was very pleased. I have no hesitation in recommending Domenico as both an Architect and a Project Manager.

Should you wish to discuss my experiences I would be more than happy to do so.

Yours sincerely

  
PAUL C VARLEY

9<sup>th</sup> August 2001

Mr Domenic Allegretto  
19 East Avenue  
MILLSWOOD SA 5034

Dear Domenic

My Building Sub-Committee and Management Committee have asked me to extend their appreciation for the excellent project management and architectural services you provided in the refurbishment and fitting out of Civil Contractors House at 60 Woodville Road. Additionally the project costs came in under budget.

Your representation of our Association when dealing with the builder and other sub-contractors is also to be commended, which gave both my President and the Sub-Committee confidence that our interests were in good hands. Accordingly we would not hesitate in recommending you to other interested persons who may be undertaking building or refurbishing projects.

On a personal note, my job was made much easier by your professionalism and high level of servicing.

Yours sincerely

BOB OSBORNE

## TO WHOM IT MAY CONCERN

Domenico Allegretto was employed as a senior architect by our firm between April 1988 and September 1989.

During this period Domenico was completely responsible for several medium sized commercial projects as well as being a team member on other major projects.

Domenico is fortunate to possess a wide range of skills enabling him to competently tackle all facets of the practice of Architecture. He not only has good design skills with well developed presentation abilities, but also possess a fine eye for detail which provides an excellent basis for contract documentation and administration.

Domenico left our firm to travel overseas. Upon his return, due to the downturn in the building industry our firm was unable to re-employ him.

I have no hesitation in recommending him to any future employer.

**TO WHOM IT MAY CONCERN**

**DOMENICO ALLEGRETTO**

Domenico Allegretto has been a valued member of our office for approximately 2 1/2 years from 18 November 1985 until 11 April 1988.

It is with considerable regret that we say au revoir to Domenico as during his time with us he has become a close member of our team. He leaves us of his own accord to further his professional career.

His friendliness, humour, conscientiousness and ever increasing library of architectural skills have equipped him to competently handle the spectrum of office practice and documentation to which he has been exposed thus far. He has worked on a variety of projects, commercial, educational and residential, ranging from the small to the multi-million dollar.

It is with confidence that we can recommend Domenico to a prospective employer and would be happy to offer additional written or verbal support should it be required.
